

CARETTA TEARDROP CAMPERS

Lightweight teardrop campers for
BIG ADVENTURES !

www.caretta-australia.com

Hello!! We're Making Camping Easier

The award winning and lightweight Caretta teardrops make it easy to holiday whenever you like. The Caretta teardrop can be towed easily by small cars and features quality European retro design, interiors and kitchens.

Caretta mini caravans are customised for Australian camping and driving conditions and are half the price of most traditional caravans. The Caretta teardrop is so light and fuel efficient it can save travellers thousands of dollars each year. It features a beautifully appointed sleeping interior and versatile kitchen complete with water, power and a cooler.

Additional Offroad Features

The only fully offroad teardrop camper in Australia. We use a completely different chassis and subframe for our offroad model, along with a larger axle and running gear. The chassis and subframe are designed and built with superior capabilities for offroad use. Offroad all terrain tyres with sealed and integrated mechanical braking. Caretta teardrops have been tested extensively on all terrains (Australian outback, sand, gravel, corrugated roads, water, snow and ice).

Offroad vans include further protective bars around the chassis, a large storage compartment under the bed and an AL-KO antisway hitch as standard features. Higher ground clearance and ride height suited to 4WDs.
